INFO-DAY and BROKERAGE EVENT

(Preliminary Programme)

3rd Workshop of the AET- community

23rd October 2008
10:00h – 17:00h

Location:

OLAF BUILDING
Rue Joseph II 30
1000 Brussels

OBJECTIVE

The objective of our workshop and Brokerage event in Brussels is quite clear: The AET group wants to get alignment internally and externally about project ideas and establishment of consortiums to be optimally prepared to react on upcoming proposals within FP7. The **morning session** include a presentation of general expectations on the AET community from the European Commission, visions on research in the sector and a summary of AET activities. Furthermore contents and topics of the Implementation Plan II will be presented. The **afternoon session** is dedicated to presentations of interesting and important organisations, who collaborate with the AET initiative followed by a **brokerage event**.

Participants will be allowed to present a 5 to 10 min. presentation (5 slides max.) related to project ideas, to their competence in specific fields, or to their interest to join consortia.

The **Closing Session** will be devoted to further Question and Answers and to the final remarks from AET chairman.

REGISTRATION

Participation on the AET workshop is subject to **registration**. Due to the limited capacity of the Plenary Hall, registrations will be accepted on a "first come-first served" basis. However, in case of over-subscription, limitation to the number of representatives for each institution may be requested.

Please register **before the 10th October 2008** by sending the registration form duly completed by email to fehrmann@ast.mw.tu-dresden.de

The registration form is available on MANUFUTURE web page in the following link:

http://www.manufuture.org/collective_initiatives.html - AET

For any additional information please send an email to fehrmann@ast.mw.tu-dresden.de

TARGET GROUP

The **Information Day and Brokerage Event** is dedicated to all parties; researchers, research institutions, companies, Industry, SMEs, National Contact Points interested in the activities of the **AGRICULTURAL ENGINEERING and TECHNOLOGIES** working group and research activities in this area.
